Mystical Secrets of Leadership Coaching

The Complete Leadership Coaching Module:

Description

Leadership Coaching is a process that allows an individual or group of people to reflect and gain awareness of who they are, what is important to them, their strengths, challenges, options open to them and what action to take in order to make the changes they want in their work or life. Coaching is a process that aims to enhance performance and focuses on the current known situation rather than on the old or unknown. There is a huge difference between teaching someone and helping them to learn. In coaching, fundamentally, the coach is helping the individual to improve their performance: in other words, helping them to learn.
